Dear Sir/Madam,

In partial fulfillment of the requirements for the **Capstone Project and Research 1** of the **Bachelor of Science in Information Technology**, our students are required to design and develop an application system that will address the operational needs of a selected organization.

In this regard, the group listed below would like to request permission to conduct their Capstone Project study with your esteemed company as the subject of their system development. The proposed title of their project is:

“FordGO: Mobile-Based Gym Database Management System for AFFORDA Gym – San Isidro Branch”

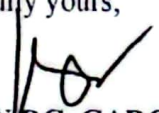

The main objective of this project is to analyze the current processes of your organization and develop an application that may help improve efficiency in managing information and operations. The students may need to conduct interviews, observations, and limited data gathering relevant to the system to be developed.

Rest assured that all information obtained from your organization will be treated with strict confidentiality and will be used solely for academic purposes.

We sincerely hope for your approval and support, as this will greatly contribute to the students' learning and professional development.

Thank you very much for your time and consideration.

Respectfully yours,

MARVIN DG. GARCIA

*Capstone Project and Research 1 Instructor/

Dear Sir/Madam,

This letter is to respectfully request permission for our students who are currently enrolled in the **Capstone Project and Research 1** course under the **Bachelor of Science in Information Technology** to begin conducting their **data gathering procedures** in your esteemed company.

The students are currently developing their Capstone Project entitled:

“FordaGO: Mobile-Based Gym Database Management System for AFFORDA Gym – San Isidro Branch”

As part of their system analysis and design phase, the students will need to gather relevant information regarding the current processes of your organization. This may include interviews, observations, and collection of necessary data that will help them better understand the workflow and requirements for the proposed application system.

Please be assured that all information obtained from your organization will be treated with strict confidentiality and will be used strictly for academic purposes only.

Your support and cooperation in allowing the students to conduct their data gathering will greatly contribute to the successful completion of their Capstone Project and to their learning and professional development.

We sincerely hope for your kind consideration and approval.

Thank you very much.

Respectfully yours,

MARVIN DG. GARCIA

Interview Questions
1. How do you handle member registration and record-keeping?
2. How do you currently track your gym's performance (e.g., attendance, income, membership)?
3. Do you experience difficulties in tracking member attendance?
4. What challenges do your members face when using gym equipment?
5. Do you find it difficult to monitor inventory or equipment usage?
6. What is your opinion about using a mobile-based system for gym management?
7. Do you think QR code technology would be useful in your gym? Why or why not?
8. What are your expectations regarding data security and privacy?
9. Have you used any digital or automated system before? If yes, what was your experience?
10. Do you think implementing this system will benefit your gym? Why?
11. Is there anything else you would like to add regarding the proposed system?
